The police campaign is brought to a dead stand, and all now await with intense interest the next event in its course—the decision of the Court of Appeals—which is expected as soon as Tuesday next. The fulminations of wits against the Major and out-
ers against policemen engaged in the late collision have been served. The Major has been held to bail in \$55,000. A. V. Stout, and his brother, Bean, Wood, are his sureties. The indictment of Recorder Smith and of the White Street Commissioners for conspiracy is urged upon the Major by his friends, and sup-
ported by the opinion of the best lawyers in the city. Mr. Conover has sued out a mandamus against Street Commissioner Devlin, and the case will be heard in the Supreme Court on the 23d inst. Alderman Will-
son yesterday surrendered himself and entered into bonds to answer any charge that may be preferred against him in connection with Tuesday's battle.—
A complaint was entered against Mr. Chowlwell, one of the Metropolitan Commissioners, charging him with threatening the life of the Major. He gave himself up to answer charges yesterday, and then dissolved the per-
manent session. The Metropolitan Board yesterday held two meetings yesterday, and then dismissed the per-
manent session. The Municipal Captains of the Sixth, dismissed the Municipal Captains of the Second Ward, and the Fourth and Second Wards. This movement resulted in nothing advantageous to the new Com-
missioners. Our despatch from Alibay states that the judges in nothing
of the Court of Appeals are hard at work making up their opinions as to the legality of the Metropolitan Police Act. Rumors have been circulated, doubtless by the black Republicans, that the judges would decide in favor of the constitutionality of the act. It is needless to say that all such reports are idle specu-
lation. The decision will be rendered with as little delay as is consistent with the gravity of the subject.

tion to express any turbulent demonstration. Squads of Municipal policemen were stationed about the Park, the Metropolitan Police Board swore in some five hundred citizens as special officers, and about four hundred soldiers were kept under arms at their armories. Notwith- standing these arrangements, the Metropolitan commissioners telegraphed to Boston for the immediate return of Governor King and the National Guard, who were attending the cele- bration of the battle of Bunker Hill.

The Governor left Boston in the afternoon, and doubtless arrived in New York last night. The Guard, however, remained in Boston, Gen. Sandford having countermanded the order of the Gov- ernor for their return. The men wounded in Tuesday's fight were yesterday quite comfort- able with the exception of two or three, whose lives are still considered as in danger, owing to the injuries received in the combat. Meantime, Mr. Devlin, the appointee of the Major and Al- dermen, retains possession of the Street Commis-
